Hope You had a good start to your School Year

## Summer Leadership Camp and Theme

I hope all of you had a good summer. I had an amazing summer especially because of leadership camp. Leadership camp taught me many things about being a leader and thought me how I can improve my skills to better our district. During this camp the other district rep's and I have decided on the theme for this year, Let Leadership Grow. This means a lot to us and it is our understanding of the importance of leadership.
